**RENEWED PETITION FOR REVIVAL OF AN APPLICATION FOR PATENT
ABANDONED FOR FAILURE TO NOTIFY THE OFFICE OF A FOREIGN OR
INTERNATIONAL FILING (37 C.F.R. 1.137(f))**

Dear Sir or Madam:

In response to the Decision Dismissing Petition under 37 C.F.R. § 1.137(b) ("Decision") dated September 30, 2005, Applicant respectfully requests reconsideration of the Petition for Revival of an Application for Patent Abandoned Unintentionally under 37 C.F.R. § 1.137(b) submitted previously on August 11, 2004 ("Petition").

In the Decision, the Office of Petitions indicated that it could not make a determination of whether or not the application was, in fact, abandoned pursuant to 35 U.S.C. § 122(b)(2)(B)(iii) because the filing date of the foreign or international application was not stated. The filing date of the corresponding Canadian application is December 31, 2003. A copy of the front page of the published Canadian application showing this information is enclosed as Exhibit A.

Applicant hereby resubmits the Petition (Exhibit B), the Statement Establishing Unintentional Delay (Exhibit C), and the Rescission of Previous Nonpublication Request and

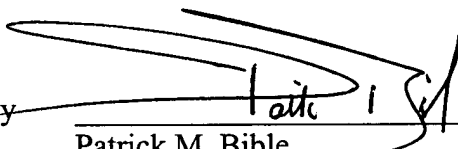

Notice of Foreign Filing (Exhibit D). The petition now includes all necessary materials and favorable reconsideration is requested.

The Decision indicated that no additional fee is required. However, if any additional fee is required, the Commissioner is hereby authorized to charge any such fee to Account No. 02-4550. A copy of this communication is enclosed.

If any further information is required, please telephone the undersigned.

Respectfully submitted,

An apparatus and method for applying pulsed electromagnetic therapy to humans and animals. A straight wire element is employed to generate the magnetic field. A power and timer circuit supplies current pulses that approximate square pulses in form, so that the straight wire element generates magnetic pulses having rapid rise and fall times. Peak field strength is

STATEMENT ESTABLISHING UNINTENTIONAL DELAY

Due to a clerical oversight, a Canadian patent application corresponding to the present U.S. Non-Provisional patent application (Application Number 10/749,324) was inadvertently filed prior to submitting a request for withdrawal from nonpublication with the USPTO. This error was discovered by Applicant's representative during a routine review of the file. The error has been corrected immediately after the discovery by the filing of a USPTO Form SB/36, Rescission of Previous Nonpublication Request and Notice of Foreign Filing. In view of more than forty-five (45) days having elapsed from the date on which the Canadian application was filed, the attached Petition for Revival of an Application for Patent Abandoned Unintentionally Under 37 CFR 1.137(b) has also been immediately filed.

The entire delay from the error to the filing of the present corrective action was therefore unintentional.
